

The Right Device

We are not mandating any particular device.

Students will need a device that is suitable for:

- Typing and editing documents
- Manipulating photos & video material
- Collaborating online and
- Using internet resources and tools

The 'right' device should:

- Be a laptop or tablet type, (ipods and smartphones are not suitable)
- Have a minimum screen size of 7.9" (Ipad mini size)
- Have a 6-hour-plus Battery
- Be wireless capable (**Wi-Fi (802.11n)**) *
- Be lightweight (maximum 3kg)
- Be robust
- Be relatively low cost
- Have a camera
- Have a warranty
- Be insured and password protected

*Device must have 5GHz 802.11n support. This may be advertised as "Dual Band Wireless", "802.11abgn", "802.11agn", "802.11ac" or "Gigabit Wireless" and is standard for devices less than 2 years old

Note: Devices marketed as "802.11bgn" probably do not support the required standard.
